Forecast for Friday 24 Feb 2023

Weather: Cloud increasing from the north through the early hours but remaining largely dry. Then a mostly cloudy morning with outbreaks of mainly light rain. The rain clears soon after midday and the cloud is expected to break up with some bright or sunny spells developing. Mainly dry through the evening with clear spells.

Chance of cloud-free hill tops above 600m: Little chance through the morning improving to 75% through the afternoon.

Low cloud and visibility: Periods or persistent above about 450-600m through the morning becoming more occasional above 600-750m through the afternoon. Away from cloud visibility good falling to several kilometres in rain through the morning becoming very good or excellent in the afternoon.
